EDUCATION

Guru Gobind Singh Indraprastha University

Bachelor of Technology in Electronics and Communication Engineering | CGPA: 8.84/10

May 2022 – July 2026

New Delhi, India

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, C++

Frontend: HTML5, CSS3, React.js, Next.js, Responsive UI Design

Backend & Frameworks: Django, Node.js, Express.js, Flask, REST APIs

Databases: MySQL, MongoDB, PostgreSQL, Sequelize ORM, Redis

Tools & DevOps: Git, GitHub, Postman, Docker, CI/CD Pipelines, Linux, AWS

AI & NLP: LangChain, LangGraph, RAG, LLM Integration, Agentic AI, CrewAI

EXPERIENCE

Junior Developer

BugHunters Pvt Ltd

May 2026 – July 2026

Noida, India

- Built Python backend services integrating security assessment APIs (OpenVAS, OWASP ZAP) for ML-assisted vulnerability detection, applying rule-based analysis logic to automate threat classification and reduce manual security review effort by 30%.
- Refactored React.js frontend data-fetching layer to fix API integration bottlenecks, improving UI responsiveness by 40% and delivering a more performant, user-friendly interface for client-facing applications.

Artificial Intelligence Intern

Shami Innovation and Technology Pvt Ltd

Sep 2025 – Dec 2025

Noida, India

- Designed and deployed production-grade Python REST APIs on Linux with CI/CD pipelines, translating business requirements into maintainable, well-documented backend services and reducing deployment time by 35%.
- Built a RAG-based retrieval pipeline using vector embeddings and MySQL/RDBMS integration to improve information retrieval accuracy by 40%, integrating LLM models into enterprise AI workflows.

Software Development Intern

AceMagick

Jul 2025 – Sep 2025

Chennai, India

- Developed 20+ RESTful APIs using Node.js for Bitrix24 CRM integration; executed comprehensive Postman test suites covering unit and integration testing, achieving a 98% bug-free release rate.
- Integrated React frontend applications with backend services and third-party APIs on AWS (EC2, RDS, Lambda, API Gateway), ensuring 99.9% uptime and 25% improvement in system efficiency.
- Collaborated in Agile sprints with Git/GitHub for version control, rigorous peer code reviews, and cross-functional coordination with designers and product stakeholders.

PROJECTS

AI Ticket Assistant | React.js, Express.js, MongoDB, Gemini API, Inngest, AgentKit

🔗 Live

- Built a full-stack web application with a React.js frontend and Express.js + MongoDB backend, integrating Gemini API for LLM-powered intent classification and AgentKit for multi-step workflow automation – demonstrating end-to-end frontend-to-backend integration.

Agentic-CRM RAG Agent | Python, LangGraph, ChromaDB, FastMCP, MySQL, Streamlit

🔗 Code

- Designed a full-stack AI agent for policy Q&A and CRM ticket lookup using RAG (ChromaDB + HuggingFace embeddings) over MySQL data; orchestrated with LangGraph and MCP tool-calling, achieving 89% faster response times.

Resume-Maker MCP Server | Python, MCP Protocol, REST APIs, GitHub Actions, LaTeX

🔗 Code

- Built a Python-based MCP server exposing REST-style tool endpoints that parse job descriptions, surgically edit LaTeX resume sections, and trigger GitHub Actions to auto-compile and publish a PDF – zero cloud cost, fully automated pipeline.

ACHIEVEMENTS

- Attained a global rank of **102** in CodeForces Round 784; rated **Specialist** on Codeforces.
- Earned a global rank of **253** in LeetCode Biweekly Contest 105; rated **Knight** on LeetCode.
- Smart India Hackathon** – College Finalist; actively participated in 11 competitive hackathons.
- Program Manager, IEEE College Society** – Led technical community initiatives and engineering events.
