EDUCATION

Guru Gobind Singh Indraprastha University

Bachelor of Technology in Electronics and Communication Engineering | CGPA: 8.84/10

May 2022 – July 2026

New Delhi, India

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript, TypeScript

Web & Frameworks: HTML5, CSS3, React.js, Next.js, Node.js, Express.js, Django

Databases: MySQL, PostgreSQL, MongoDB, Sequelize ORM, RDBMS, Redis

Cloud & DevOps: AWS (EC2, S3, RDS, Lambda, VPC, CloudWatch, IAM), Docker, CI/CD Pipelines, Git, Linux

AI & NLP: LangChain, LangGraph, CrewAI, RAG, MCP, Agentic AI, LLM Gateways, Chatbot Evaluation

APIs & Architecture: REST APIs, Microservices, Kafka, System Design

EXPERIENCE

Junior Developer

BugHunters Pvt Ltd

May 2026 – July 2026

Noida, India

- Designed and implemented Python-based backend services integrating security assessment APIs (OpenVAS, OWASP ZAP), translating client vulnerability requirements into automated technical solutions and reducing manual effort by 30%.
- Refactored frontend API data-fetching architecture in React to resolve latency bottlenecks, improving UI responsiveness by 40% and enhancing end-user experience for client-facing applications.

Artificial Intelligence Intern

Shami Innovation and Technology Pvt Ltd

Sep 2025 – Dec 2025

Noida, India

- Architected and deployed production-grade Python REST APIs on Linux with CI/CD pipelines, converting business requirements into enterprise AI application features and cutting manual deployment time by 35%.
- Designed RAG-based retrieval pipeline leveraging vector embeddings and RDBMS integration to improve information retrieval accuracy by 40%, supporting data-intensive enterprise AI workflows.

Software Development Intern

AceMagick

Jul 2025 – Sep 2025

Chennai, India

- Architected scalable serverless AWS infrastructure (EC2, RDS, Lambda, API Gateway, IAM) aligned with business lead-capture requirements, ensuring 99.9% uptime and improving system efficiency by 25%.
- Developed 20+ Node.js RESTful APIs for Bitrix24 CRM, executing automated Postman test suites with unit and integration testing, achieving 98% bug-free release rate.
- Collaborated in Agile development cycles leveraging Git/GitHub for version control and rigorous peer code reviews.

PROJECTS

Resume-Maker MCP Server | Python, MCP Protocol, LaTeX, GitHub Actions

🔗 Live

- Built a local MCP server that analyzes job descriptions for keywords and skill requirements, surgically edits LaTeX resume sections, and auto-pushes to GitHub where Actions compiles and publishes a fresh PDF with zero cloud cost.

Agentic-CRM - RAG-Agent | LangGraph, FastMCP, ChromaDB, LiteLLM, NeMo Guardrails, Streamlit

🔗 Live

- Designed a full-stack AI agent enabling policy Q&A and CRM ticket lookup via RAG (ChromaDB + HuggingFace embeddings), orchestrated with LangGraph and MCP tool-calling, resulting in 89% faster response times and improved ticket resolution efficiency.

AI Ticket Assistant | Gemini API, Inngest, AgentKit, React, Express.js, MongoDB

🔗 Live

- Built a full-stack AI agent system automating IT query handling using Gemini API for intent classification, AgentKit for multi-step task execution, and Inngest for event-driven workflow orchestration on a React + Express.js + MongoDB architecture.

ACHIEVEMENTS

- Attained a global rank of **102** in CodeForces Round 784; rated **Specialist** on Codeforces.
- Earned a global rank of **253** in LeetCode Biweekly Contest 105; rated **Knight** on LeetCode.
- Smart India Hackathon** – College Finalist; actively participated in 11 competitive hackathons.
- Program Manager, IEEE College Society** – Led technical community initiatives and engineering events.
